

## Audio Issues – Audio skipping every 15 minutes

### Symptoms:

When the Xtreme is playing audio files, it may skip and stutter over the air. Looking at the LOGS screen you may see Timeskip often throughout the hours. If these timeskips happen at approximately :15, :30, :45, :55 past the hour each hour.

### Solutions:

The newest version of the Digilink-Xtreme 1.9.1 1-21-10, has the ability to automatically upload your latest unlock code from the internet. If you do not have internet connected to the computer or your internet connection is slow, then you will want to turn this option off. You can tell if your internet connection is too slow by an audio blip at ~:15, :30, :45 and :55 past the hour. To turn this off:

- 1) open the **Digilink-Xtreme** software
- 2) click on the **Menu** button
- 3) click on the **Setup** button
- 4) uncheck the **FTP auto-update** option. You will need to now get your codes manually
